Home Health & Hospice

An affiliate of Southern Ocean County Health System, Inc.

Compassionate healthcare in the comfort of home.

Helping families cope with caring for an elderly or ill loved one in the comfort of their own home is the philosophy behind the care provided by Southern Ocean Home Care.

Southern Ocean Home Care provides a team approach to care. The focus is on working with the patient and caregiver in achieving the health and quality of life goals that are important to them.

A commitment to expert care.

Specially trained, compassionate staff provide care, guidance, resources and skilled assistance to people who are recovering from illness or injury; or those who are struggling with a chronic disease.

Each patient benefits from an initial assessment from a certified home health nurse, who will develop an individualized plan of care. The nurse will work closely with each patient's physician, provide ongoing monitoring of care and act as an advocate to assure the family has access to any additional services they may need.

Certified Home Health Aides, *under the supervision of the registered nurse*, will provide personal care, oversee the patient's nutritional needs and monitor the patient's medication compliance. The Home Health Aide will also assist with grocery shopping, meal planning/preparation, and light household chores.

Our staff of highly qualified, caring professionals includes:

- Registered Nurses
- Physical Therapists
- Home Health Aides
- Case Managers
- Companions

Southern Ocean Home Care provides a full range of programs that are tailored to meet a patient's individual needs. These include:

- Skilled Nursing
- Wound Care
- Companions/Homemakers
- Certified Home Health Aides
- Durable Medical Equipment (such as hospital beds, wheelchairs, walkers, etc.)
- Case Management Program (to assist and support patients and their caregivers; to locate community resources and to coordinate all aspects of care)
- Rehabilitation Services (PT,OT, Speech)
- Home Infusion Therapy
